1922

In late 1923, the cost of bread was 1 trillion marks. The price had continued to rise throughout the year.

Candidate #1

“In the economic sphere this... has proved to be an immense misfortune. The districts which were most important for the feeding of our people were lost and districts which have been treasonably alienated. And what did the Revolution not prophesy for us in the political sphere? One heard of the right of Self-Determination of Peoples, of the League of Nations, of Self-Government of the People. And what was the result? A World Peace, but a World Peace over a Germany which was but a field of corpses. Disarmament, but only the disarmament of Germany, with Germany looting its own resources. League of Nations, yes: but a League of Nations which serves only as the guarantor for the fulfillment of the Peace Treaty, not for a better world order which is to come. And government by the people - for five years past no one has asked the people what it thinks of the act of November of the year 1918: at the head of the [German] nation there stands a President who is rejected by the overwhelming majority of the people and who has not been chosen by the people. Seventeen million Germans are in misery under foreign rule... We have been rendered defenseless: we are without rights... Germany has been turned into a colony of the outside world.” – Speech in 1923

Promises:

- Emphasis on patriotism, pride in the past
- Replace weak leadership with new, decisive leaders
- Rebuild the army to protect against enemies
- Regain the land unfairly taken by the Treaty of Versailles
- Make sacrifices to fix the economy
- Put the state's welfare above that of the individual – when the country is great again, we will all prosper

Candidate #2

“Here we are now, halfway through 1929. And it is not as bad as it could have been, it is proven by the fact that in the past four weeks, the moments of greatest crisis, the unemployment rate did not climb as high as we had calculated given the world situation. And because of that, I hope that here in Germany it will be possible to work together to find a necessary international solution that will bring peace to the world and create a foundation to rebuild. So I must say that if this is not possible, ladies and gentlemen, the government has decided to protect-- not like they did in the last winter months-- not only to say that until now they have had no successes in foreign affairs or some other areas. Instead they can say that the way is clear and that we will eventually make it through this harsh winter.” --1929 speech to the Reichstag (German legislative assembly)

Promises:

- We've got to realize that there are no quick solutions to our problems
- Put people back to work— economic progress may still be slow
- Provide care for the poor, sick & elderly
- Avoid reckless spending— be cautious
- Act responsibly to protect democracy
- Be a good neighbor country; honor our obligations to treaties and debts
